

# UPS My Choice® for Business:

The all-new experience puts the UPS services you need in one convenient place.

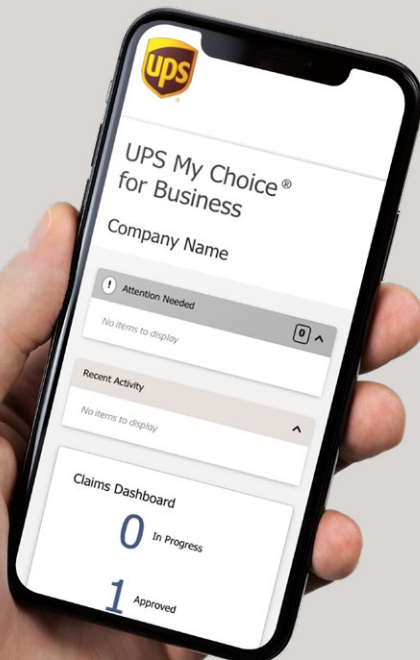

With the day-to-day demands of running your business, manually tracking individual deliveries and dealing with customer shipment questions can eat into valuable time. But all that changes with **UPS My Choice for Business**. With this one-stop hub for all your UPS services, you can save time, do more and improve customer service. Sign up now to easily connect, view and manage all your select UPS applications from the UPS My Choice for Business centralized dashboard.

## Key Features:

- Self-managed access to free inbound and/or outbound visibility dashboards.
- Estimated delivery windows and inbound delivery notifications.
- Easy online registration, with the ability to add additional users.
- Branded Tracking app lets you create a custom tracking page for your customers to increase engagement and build loyalty.
- UPS Returns Manager app simplifies the returns process and provides customers with notifications.
- Claims app provides visibility and helps claims get resolved in a timely manner.

## What is UPS My Choice® for Business?

UPS My Choice for Business was created with your business in mind. With access to an inbound dashboard, outbound dashboard, or both, this free tracking tool makes it easy to view and manage all your shipments like a pro. Delivery notifications and estimated delivery windows for inbound shipments help you plan better and save time and money. [Signing up](#) online is simple, and you can easily add users in your organization anytime.

### Connect your UPS applications

UPS My Choice for Business is now your digital hub for everything you do through UPS. Simply connect and navigate to all of your favorite UPS applications, like Branded Tracking, Claims and UPS Returns Manager. You'll see each of your UPS applications at a glance right on the centralized dashboard. Plus it's easy to discover and connect other helpful UPS apps when you need them.

### Take control

Keeping track of your outbound shipments has never been easier. With a quick glance at your outbound dashboard, you can find the exact status and location of all shipments on the way to customers. UPS My Choice for Business can help you improve customer service by providing more accurate delivery timelines, and allowing you to proactively monitor shipment status before customers start calling.

### Sign up online

UPS My Choice for Business registration is simple. You can sign up in just a few minutes on [ups.com](#). Or you can have your sales representative assist in enrolling your company. Once you're signed up, the administration portal makes it easy to share visibility privileges with multiple users in your business, and customize different access levels based on job responsibility.
